

RCstar

AIM

Spreading awareness about waste disposal and waste recycling and also make the game interesting and enjoyable.

SDG Goals:

Life on Land, Responsible production and consumption.

NOVELTY :

Existing games are completely informative and provide less entertainment and are not interesting.

WHY :

Waste management reduces effect of toxic waste on environment and human beings.

Energy and resources can be saved and Pollution can also be reduced through waste recycling.

We want to educate the game player about waste management and waste recycling.
